

Dear Mare Owner,

Thank You for choosing Ted Robinson Cow Horse Facilities for your breeding needs. We assure you that we will provide you and your mare with the utmost care and diligence in getting your mare settled. We believe in your Future Champion and take pride in the program we stand behind.

Our Breeding Season will begin February 1st and end July 12th.

In order for us to reserve your breeding, please send the following items:

1. A signed contract
2. A copy of your mare's registration papers
3. A check for \$500 for booking fee

The remaining balance of the Stallion Fee will be due when your mare is checked "in foal" or before your mare leaves our farm.

Please have your mare up to date on all current vaccinations (within 30 days of arrival) and deworming. We can provide farrier services if your mare should need them during her stay.

FEEDING: We feed alfalfa hay twice a day and supplement with Purina brand Ultium when needed. If you have a specialized feeding program, please let us know in advance so we can accommodate your mare's feeding requirements.

ARRIVAL: Please give us an estimated time of arrival so we can make sure someone from our staff is available to meet you and your mare.

BLANKETS: If your mare wears a blanket, we will gladly provide those services for you. Please provide your own blanket.

HALTERS: Please take your halter and leads with you when you go, but remember to bring them when you pick up your mare.

Please do not hesitate to contact us if you have any questions or concerns.

We look forward to doing business with you.

Sincerely,

Katie Montague
Breeding Manager
